All facilities operated by KU Student Housing have sprinklers. All are code compliant with regard to fire doors and fire walls. All group living facilities meet code requirements with regard to number and placement of smoke detectors, heat sensors, fire extinguishers, and enunciator panels. All fire alarm panels in group living facilities are tied to the KU Public Safety Office.

Grace Pearson Hall is being renovated in Summer 2017, including a new fire panel. Battenfeld Hall will be renovated in Summer 2018.

### Policy Information

The KU Student Housing Handbook lists policies that prohibit the following:

- Smoking and e-cigarettes
- candles and incense
- fireworks and explosive materials
- extension cords and multiple socket plugs
- halogen lamps
- space heaters
- hoverboards
- gasoline-operated machines
- tampering with fire safety equipment

Kitchen appliances are permitted in apartment kitchens only (toasters, toaster ovens, contact grills, and rice steamers).

See <http://housing.ku.edu/handbook/> (page 15-16).

### Fire Safety Education and Training

Residence Life staff receive annual training conducted by the Lawrence Fire and Medical staff. This training includes prevention, response procedures, and fire extinguisher use. This training is conducted in collaboration with the KU Public Safety Office, and includes training on detecting the smell of burning marijuana and the identification of drug paraphernalia.

Each living area hosts annual fire safety education programs conducted by the Lawrence Fire and Medical staff. These sessions include prevention and alarm response procedures.

## **FIRE ALARM PROCEDURES**

Alarm sounds.

Fires should always be reported with a “911” call.

After the fact, information about extinguished fires should be reported to the residence life staff-on-duty, the complex director, the Student Housing office, and/or the KU Public Safety Office. When calling, please provide as much information as possible about the location, date, time, and cause of the fire.

Department of Student Housing	(785) 864-4560
KU Public Safety Office	(785) 864-5900

The residence life Staff Manual contains the following information that forms the basis for fire emergency response training. This includes information that is shared with students, and the reporting structure in a fire emergency situation.

Purpose: To prevent or reduce loss of life, injury to residents and staff, and damage to property.

### **Order of Command:**

- KUPSO officer in charge
- Fire Department Commander (hereafter referred to as FDC).
- Assistant Complex Director/Complex Director/Scholarship Hall Director (hereafter referred to as ACD/CD/SHD) or person in charge of the hall at that time: If the ACD/CD/SHD is not in the building, a Resident Assistant or Proctor takes charge.

The residence life staff person in charge will report to the front desk immediately and remain there to direct operations until the incident is declared over.

During the incident, staff should follow explicitly the instructions of the fire department commander and KUPSO in charge. If you have concerns or suggestions for modifications, notify your ACD/SHD or CD.

## **Fire**

### **Remember:**

- Fire is FAST.
- Smoke from a fire is a major threat. Even without flames/heat, smoke can be lethal.
- Every time a fire alarm sounds in student housing facilities, the **alarm will be treated as a real fire** until a trained professional [Lawrence/Douglas County Fire/Medical (LDCFM), Public Safety, etc.] determines otherwise. The actions taken by student and professional staff during EVERY fire alarm should be the same whether there is an actual fire or not.
- During the emergency, staff members must follow instructions of emergency personnel.
- If residents have information regarding residents needing assistance, notify emergency personnel and/or hall staff at the front desk.
- Residents should not re-enter the building until LDCFM/PSO has given the ALL CLEAR.
- Do not enter a stairwell if there is smoke.
- Check any closed door to see if it is hot using the back of your hand; DO NOT open a door that feels hot.

**Basic Principles**

Each time the alarm sounds, it is imperative that the staff considers it a real fire.

It is imperative that the staff members report often and accurately to the CD/SHD at the front desk. Await further instructions from the person in charge, complete these tasks, and report what you have done. When the person in charge tells you to leave the building, DO SO. Remember to follow orders NOW and ask questions later, if you wish.

RAs/Proctors should go over the fire alarm procedures from the residents' point of view at a floor meeting before an alarm. They should close windows, lock doors, take only a towel. Before leaving the room, feel the door; if it is hot, they should remain inside, placing towels (wet, if possible) around the door and hang a sheet out the window to alert the fire department that they need rescuing. They should also call the front desk from inside the room, if possible. If the door is not hot, they should lock their door behind them, taking the key, and proceed down the stairwell and move outside to 100 feet from the building.

Impress upon your residents the serious nature of pulling false alarms.
